

A family photo

This is my family: my mum, my sister and me.

We like to dress up and we often go to the cinema together.

I'm Tom and I'm the youngest. I'm only eight.

My sister is eleven. We have got fair hair, but we all have got different eye colour.

My mum's eyes are brown, my eyes are blue, and my sister's eyes are green.

She is wearing a witch's hat in the photo. Sometimes, she can be a witch to me.

She teases me and hides my things. But sometimes she is very nice.

When I am sick, she brings me cookies and we watch cartoons together.

My mum also likes cartoons. She is hard-working. She has got her own cake shop and makes the best cakes! She isn't very good with technology, though. Look!

She can't even take a selfie. I help her when I can. She helps me with homework.

I still can't read too well. But I love to play sports and I can swim.

My mum says I am the fastest and loudest in our family.

Answer the questions.

- 1) How are the members of this family similar? How are they different?

- 2) How about your family – do you look like each other?
Do you like the same things?

- 3) How many people are in your family? And in Tom's family?

- 4) What does your family do together?

- 5) Is there anything members of your family can't do? Who helps them?
