

## The best teacher

Today my Maths teacher got the Best Teacher Award for this school year. Ms Johnson is young, but she is the greatest teacher ever. Here is what it says on her Best Teacher Diploma:

**Best at giving knowledge** – I don't know why, but when Ms Johnson explains something, I can always remember it. She knows how to make Maths interesting and simple.

**Best at making jokes** – Ms Johnson always comes to the class with a joke. She often goes to stand-up comedy evenings and learns new ones.

**Best at being kind** – Ms Johnson never shouts. Her voice is calm, and she always has a nice word for everyone. Also, she sometimes helps students who do not have money for school lunches. (She doesn't want us to know this!)

**Best at listening** – Ms Johnson listens to all her students and helps them with hard as well as with easy tasks. She is never too busy to stop and hear what we have to say.

**Best at learning** – Although she is a Maths teacher, Ms Johnson always learns new things. This year, she is going to an art class. She says she isn't very good, but at least she is trying!
