

## What is there... of?

There is one Sun and Moon as seen from the Earth.  
People have got one head, mouth and nose.  
You have only one birthday.

People have got two eyes, ears, arms and legs.  
You have two parents: your mum and your dad.  
There are two wheels on a bicycle.

There are three primary colours: red, yellow and blue.  
Characters in stories are often three in number: three blind mice,  
brothers or sisters, little pigs...  
A triangle has three sides.

Spiders and octopuses have got eight legs.  
You can only have eight teeth on every side of each jaw.  
A STOP sign has eight sides.

There are nine squares on a tic-tac-toe board.  
Babies are born after nine months.  
There are nine holes in a game of golf.

People have got ten fingers and ten toes.  
There are 10 digits in maths (0-9).  
Babies need about 10 hours of sleep.

### Task:

Find out what comes in groups of **four**, **five**, **six** and **seven**.  
(Help: You can Google the information or find it on Wikipedia.)
