

People in my home

I've got a new camera! It is a present from my grandparents for my twelfth birthday. Today, I decided to go around our house and take photos of my family. Look at how busy they all are!

This is my mum and my baby brother, Alex. They are sitting at my mum's desk. Alex is playing with his toys. She is talking on the phone and checking my homework. She isn't looking at her computer or writing anything. She is so busy!

Here is my dad, in our living room. He is working, or maybe surfing the Internet. I hope my clothes are ready for school tomorrow because he isn't doing the laundry. He is too busy!

My grandma is staying with us for the weekend. She is making lunch here. We are talking in the kitchen. She isn't very happy that I am taking her photo with my camera. She is a very busy lady.

And this is our dog, Billy. He isn't busy at all – he is sleeping on the rug and isn't looking at me at all. Maybe he is tired or just dreaming about food!
