

Makroregionalna i regionalna središta Hrvatske

Ime:

A topographic map of Croatia is shown, with 20 white circular callout points distributed across the country. Each point is connected by a black line to an empty rectangular box. The boxes are arranged in two rows of ten. The map uses a color gradient to represent elevation, with green for lower elevations and yellow, orange, and red for higher elevations. Major cities and geographical features are visible on the map.
