MR GRAHAM: Hello, Noah! It's great to be here today.
Bok, Noah! Lijepo je danas biti ovdje.

NOAH: We're happy to have you.
The reason we've invited you is the World Teachers' Day.
Jako smo sretni što ste s nama.
Razlog što smo Vas pozvali je Svjetski dan učitelja.

MR GRAHAM: Yes, I was surprised to be honest.
I didn't expect I would be the first guest.
Da budem iskren, bio sam iznenađen.
Nisam očekivao da ću biti prvi gost.

NOAH: That was not a mistake. We all enjoyed your lectures very much.
What is your favourite history topic to teach?
Nije bila pogreška. Svi smo uživali na Vašim predavanjima.
Koja je bila Vaša omiljena tema za predavanje?

MR GRAHAM: **Perhaps, I am most enthusiastic about ancient civilisations.**
Možda najviše volim stare civilizacije.

NOAH: Oh, sure, I still remember your descriptions of the Trojan War.
Da, naravno, još se sjećam Vaših predavanja o Trojanskom ratu.

MR GRAHAM: I'm happy to hear that!
One of the history lessons I like to teach is how humans began to write.
Humans started drawing paintings in caves.
Drago mi je to čuti.
Jedna od lekcija koju volim predavati je kako su ljudi počeli pisati.
Ljudi su najprije počeli slikati u špiljama.

NOAH: What did they draw? And how is it related to writing?
Kako su crtali? I kako je to povezano s pisanjem?

MR GRAHAM: Well, they made handprints. They believed that hands protected the cave from evil forces and wild animals. Also, they drew some hunting scenes. Humans wanted to express themselves. This led to the first writing systems. Pa radili su otiske svojih ruku. Vjerovali su da ruke štite špilje od zlih sila i divljih životinja. Također su crtali scene lova. Ljudi su se željeli izraziti. To je vodilo do prvih sustava pisama.

③ Read the second part of the interview. Pročitaj drugi dio intervjua.

NOAH: So, when did people actually begin to write?
Dakle, kada su ljudi zapravo počeli pisati?

MR GRAHAM: First, they used symbols. But it took some time for the symbols to start meaning something to larger groups of people. One of the first writing systems was the so-called cuneiform.
First, people wrote on walls and clay and wooden tablets, until Egyptians invented papyrus. Isn't that exciting?
Ljudi su najprije koristili simbole. Ali trebalo je proći neko vrijeme da simboli počnu nešto značiti većim grupama ljudi.
Prvi sustav pisma bilo je klinasto pismo.
Ljudi su najprije koristili drvene ploče, dok Egipćani nisu izumili papirus. Zar to nije uzbudljivo?

NOAH: Now that you say it like that, I agree that it is.
And when did people start writing books?
Kada to tako kažete, moram se složiti da jest.
Kada su ljudi počeli pisati knjige?

MR GRAHAM: The first written story that we know of is The Epic of Gilgamesh. But my favourite ancient books are Homer's Iliad and Odyssey. Anyway, the Iliad is the epic about the Trojan War. The story of the Trojan War is a legend.
Prva napisana priča za koju znamo je Ep o Gilgamešu.
Ali moja najdraža knjiga iz starog vijeka je Ilijada i Odiseja.

Liam opisuje zamišljeni susret s poznatom osobom iz prošlosti.
Pročitaj.

It was a Saturday evening.

Bila je subota poslije podne.

I was with my parents in an unknown part of London.

Bio sam s roditeljima u nepoznatom dijelu Londona.

My mum wanted to buy some furniture.

Moja mama je htjela kupiti namještaj.

My mum was running, saying that the store would soon close.

Moja mama je trčala govoreći da će se trgovina brzo zatvoriti.

My father and I were trying to catch up.

Moj otac i ja smo ju pokušavali sustići.

All of a sudden, I got lost.

Odjednom ja sam se izgubio.

I saw a small passage on my left.

Ugledao sam mali prolaz sa svoje lijeve strane.

As I was walking through the passage, I heard the steps of a man in the distance.

Dok sam hodao kroz prolaz, čuo sam nečije korake u daljini.

I thought it was my father.

Mislio sam da je to moj otac.

I started running.

Ja sam počeo trčati.

I stormed out of the passage into the street.

Izjurio sam iz prolaza na ulicu.

A man was standing there.

Tamo je stajao jedan čovjek.

I bumped right into him.

Sudario sam se s njim.

As we were both falling onto the ground, I grabbed his shoulder accidentally and tore his sleeve.

Dok smo obojica padali, ja sam ga uhvatio za rame i slučajno mu poderao rukav.

I met the bard

We were lying on the ground when he picked up his cap and put it on his head.

Ležali smo na tlu kada je podigao svoju kapu i stavio ju na glavu.

He seemed familiar to me.

Učinio mi se poznatim.

I said: 'I'm so sorry, mister.'

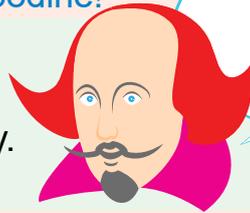

Ja sam rekao: 'Jako mi je žao, gospodine!'

He laughed and started talking.

Nasmijao se i počeo govoriti.

He was speaking in an unusual way.

On je govorio na neobičan način.

and all the men and
women merely players'
'Cijeli svijet je pozornica,
a ljudi su glumci tek.'

I didn't understand what he was saying.

Nisam razumio što je rekao.

He was wearing a costume, so I thought that he was an actor.

Nosio je kostim pa sam pomislio da je glumac.

'Are you in a play?', I asked.

'Jeste li u predstavi?', pitao sam.

'All the world's a stage and all the men and women merely players', he answered.

'Cijeli svijet je pozornica, a ljudi su glumci tek.' odgovorio je.

As he was saying these famous lines, it dawned on me – that was William Shakespeare himself!

Dok je izgovarao te poznate rečenice, svanulo mi je - to je bio William Shakespeare osobno.

I remember the photo from my Literature textbook.

Sjećam se slike iz udžbenika književnosti.

Lorrie, an IT expert Lorrie, informatičarka

I became an IT expert because of something that happened to me when I was in high school.

Postala sam informatičarka zbog nečega što mi se dogodilo u srednjoj školi.

I became a victim of phishing.

Postala sam žrtva krađe identiteta.

Kenneth, stručnjak za zaštitu djece

Razgovarao sam s puno djece koja su imala iskustva s nasiljem preko interneta.

The victims say they were cyberbullied online or via mobile phones.

Žrtve kažu da su bile maltretirane na mreži ili preko mobilnih telefona.

A 15-year-old girl received many threatening messages from her peers.

Petnaestogodišnja djevojka je primala mnogo prijetećih poruka od svojih vršnjaka.

She has been scared for her life ever since.

Od tada se boji za svoj život.

Cyberbullies stole a boy's identity to post embarrassing posts on his Instagram page.

Internetski nasilnici ukrali su identitet dječaka kako bi postavili neugodne sadržaje na njegovu Instagram stranicu.

Lately, there has been a lot of discussion about the so called 'human enhancement'.

U zadnje vrijeme se često vode rasprave o takozvanom 'poboljšanju ljudske vrste'.

This means any change that will improve a person's bodily or mental abilities. To znači bilo koju promjenu koja će poboljšati nečije tjelesne ili mentalne sposobnosti.

It is quite usual for people to exercise to make their body stronger, to take medicine to cure some disease, or wear eyeglasses to improve their vision. Prilično je uobičajeno da ljudi vježbaju kako bi ojačali svoje tijelo, uzimaju lijekove da bi izliječili neki bolest ili nose naočale da bi poboljšali vid.

She might have got angry earlier that day.
Her maths teacher told her that blinking her eyes wouldn't help her getting a better mark. Can you imagine?

Može biti da ju je nešto naljutilo ranije toga dana. Učitelj matematike joj je rekao da joj treptanje neće pomoći u tome da dobije bolju ocjenu.
Možeš li zamisliti?

A new pupil from 8D is so beautiful!

Nova učenica iz 8D je tako lijepa!
Njezina ljepota joj može donijeti što got želi!

My mum sends me like a billion messages per hour!
Technology can be so annoying when someone stalks you!

Moja mama mi šalje bezbroj poruka na sat!
Tehnologija može biti tako naporna kada te netko uhodi!

In my opinion

Top quality??? OMG!!! So called branded clothes are the same quality as no name clothes, just more expensive! People who buy them are just stupid! Vrhunska kvaliteta? OMG!!! Takozvana odjeća poznatih svjetskih marki je iste kvalitete kao bezimena odjeća, samo skuplja. Ljudi koji to kupuju su glupi.

You can block her and tell her that's her mistake!

Parents just don't get technology, that's great about it.

Možeš ju blokirati i reći joj da je to njezina pogreška.

Roditelji jednostavno ne razumiju tehnologiju, to je odlično.

True. But she is also very rude. ☹️ A girl with a broken leg asked her for help with a schoolbag, she just laughed and said that she had better things to do.

Looking good doesn't help if she's rude.

Istina. Ali je također i bezobrazna. ☹️ Djevojčica sa slomljenom nogom ju je zamolila za pomoć sa školskom torbom, a ona se samo nasmijala i rekla ima pametnijeg posla. To što dobro izgleda nije važno ako je bezobrazna.

Well, my classmate is also beautiful, but she never refuses to help someone and her marks are excellent.

She seems even more beautiful because she is a really nice person.

Pa, moja prijateljica koja sjedi sa mnom je također prekrasna, ali nikada ne odbija pomoći i odlična je učenica. Dobrota ju čini još ljepšom.

Top quality or not, branded clothes show who is who. I would never hang out with someone who wears no name clothes. Neither would you if you could only afford to buy branded clothes.

Vrhunska kvaliteta ili ne, odjeća poznatih marki pokazuje tko je tko. Ja se nikada ne bih družio s nekim tko nosi bezimenu odjeću. Ne bi ni ti, samo kada bi si mogao priuštiti odjeću poznatih marki!

Anyway, when you're 14, you should date someone beautiful.

That's the most important thing.

Nema veze, kada imaš 14 godina, trebaš izlaziti s nekim lijepim. To je najvažnije.

No way! My mother develops assistive technology for people with difficulties. She sure does understand technology! Most of the time, that's cool. I can test cool games you control by your eyes, or I can lock and unlock the door simply using my voice. But I hate being controlled 24/7.

Nema šanse! Moja majka razvija asistivne tehnologije za ljude koji imaju teškoće, ona sigurno razumije tehnologiju. Većinu vremena je to super. Mogu isprobavati nove igre koje kontroliraš očima ili mogu zaključati i otključati vrata glasom. Ali mrzim to što me kontrolira svaki dan, cijeli dan.

Sometimes I wish my parents were that cool. But then again, I redirected my teachers' emails and messages to my phone and my parents didn't notice. It's fun so far, but sooner or later I'll have to show them my school report card. Ponekad poželim da su moju roditelji tako cool. Ali s druge strane, preusmjerio sam e-poruke i ostale poruke svojih učitelja na svoj telefon i moji roditelji nisu primijetili. Za sad je to zabavno, ali prije ili kasnije ću im morati pokazati svjedodžbu.

Edible insects are full of protein.
 Jestivi kukci su puni bjelančevina.

A research has shown that crickets have more iron than beef.
 Jedno istraživanje je pokazalo da cvrčci imaju više željeza nego govedina.

The UN reports that two billion people eat insects as their standard diet.
 Izvješće UN-a pokazuje da dvije milijarde ljudi jede kukce na svakodnevnom jelovniku.

This means that if I lived in China, eating bugs would be perfectly normal to me.
 To znači da kada bih živjela u Kini, jesti kukce bi mi bilo potpuno normalno.

Being disgusted if someone offers you fried bugs is just rude.
 Gađenje nad prženim kukcima koje bi ti netko ponudio bi bilo nepristojno.

You don't have to eat them.
 Ne moraš ih pojesti.

However, thinking of people who eat them as if they were awkward or less worthy than us is impolite and not very smart.
 Ipak, misliti o ljudima koji ih jedu kao o čudnima ili manje vrijednima od nas je nepristojno i ne jako pametno.
